

⇒ 2026 SNMMI AI SUMMIT: Clinical Adoption of AI

MARCH 12-13

[-> THE BETHESDAN HOTEL, BETHESDA MARYLAND

Join us on March 12–13 for the third SNMMI AI Summit, **Clinical Adoption of AI**, where leaders from academia, industry, federal agencies, and patient advocacy groups will come together to address the end-to-end challenges of translating AI from promise to clinical practice in nuclear medicine. Through a carefully curated and forward-looking program, the Summit will explore the full adoption pathway—from regulatory considerations and evidence generation to sustainable data ecosystems, emerging AI innovations, applications in computational nuclear oncology, and reimbursement strategies essential for long-term clinical impact. The Summit will also feature a new **Hands-On AI Exhibit**, providing an interactive forum to experience cutting-edge algorithms in action.
