

Nuclear Medicine Ambassadors Program (Nuclear MAP)

To expand awareness of careers in nuclear medicine, SNMMI members—including physicians, scientists, physicists, technologists, and other nuclear medicine professionals—volunteer as Nuclear Medicine Ambassadors.

Educators, community organizations, and other interested groups may request a Nuclear Medicine Ambassador to visit their school or organization for a Career Day event, host an information table at a career fair, or deliver a presentation that introduces students to the exciting and rewarding opportunities available in the field of nuclear medicine.

Please contact EarlyCareer@snmmi.org to request a Nuclear Medicine Ambassador.

If you would like more information about the SNMMI, please visit our website at www.snmmi.org.
